Grid Squares & Spits (list all grids excavated within this context and tick the appropriate spits)

The graph displays a blue curve and a light blue line on a 25x25 grid. The x-axis is labeled 'Spit' with values from 1 to 25. The y-axis is labeled 'Grid Squares' with values from 1 to 25. The blue curve starts at the origin (0,0) and follows a path that is slightly below the diagonal line y=x, passing through approximately (10,10) and ending at (23,23). The light blue line is a straight line segment connecting the point (0,25) on the y-axis to (23,0) on the x-axis.
